

Franz Bardon was born on 1 December 1909 in Katherrein (Kateřinky) near Troppau (today Opava). These places belonged to Austria-Hungary, today the Czech Republic.

Franz Bardon attended the School in Opava and then completed an apprenticeship as a mechanic.

His most important interest was however Metaphysics and a very special spiritual task for the benefit of all. Franz Bardon appeared in Shows on Stage under the artist Frabato, to show the people of the time a few possibilities of true magic.

Even today, the concept of magic is a shock to many people, because it was too often stigmatized in the context of polarization. In truth it means nothing but bringing about changes through (relative) free will, something that every human is already doing consciously or unconsciously day by day.

Every purpose, every thought more, everything we see, say, think, feel and do is basically "magical". As long as we live and have a will, we can not be "not magical". A knowledge deliberately dominates the powers of mind, thought, and body to work for themselves and for all. This does not force anyone, it has no negative effects and exists in complete harmony with the inner and outer forces.

Franz Bardon was often attacked. Some people wanted to get this knowledge and skills, but it was not possible for ethical reasons! In 1941 he was arrested and taken to the Concentration Camp Troppau. After his release (in October of the same year) he worked as a naturopath in Munich and then in his home town Troppau.

His unusual and innumerable successes, also in so-called "incurable" diseases, soon made his practice a place of pilgrimage for people from all over the world. They also brought him numerous hate campaigns, from people who saw in him and in his work a danger to their own systems. Ultimately, this led to his arrest. Franz Bardon died - according to the well-known biography - in a prison hospital in Brno (Czechoslovakia)

His three books, translated into many languages, contain a true knowledge base on the connections between body and soul and the connection between man and cosmos. These include countless indications that are of the utmost importance to the present. For the NOW and HERE.

The symbol of the so-called four-pole magnet means not only individual humans but also the whole planet, including all other realms and planes. This is at the same time the key and the basis for the so-called "golden age", in which there will be no illusion. It is a world in which ALL people and beings who are united in absolute harmony can love and live in the highest ethics.

Franz Bardon also published the tradition of formula magic (key to the true Quabbalah), which can be traced back to the ancient Egyptian epoch in the origins but is, in truth, much much older.

Cuno Hellmut Müller (founder of the Bardon Mueller League - BML for short) took up the knowledge of Franz Bardon in the 1960s and offered us a simplified method that everyone could use immediately. The fact that this is possible by considering ethical principles and love for every human being has been demonstrated by countless users all over the world.

We believe that Franz Bardon deserves great gratitude! He has cured countless people, he was and is a personal teacher and inspiration. He continued to work for the welfare of our planet and its inhabitants, even under the most adverse circumstances and despite all oppression.

His books are written for all who aspire to truth, freedom, love and knowledge!

Franz Bardon lives in his revolutionary works (translated into many languages) and in the hearts of all his friends. And who knows ... maybe far beyond. Truth is immortal and miracles still exist today ..

There have been and are few spiritual teachers who have provided humanity with such fundamental knowledge as he did.

From the heart a great thanks
